

LED Treiber 200W 24V Stecksytem

A white rectangular electronic LED converter. It has a power cord with a standard two-prong electrical plug on the left. On the right, a cable extends from the unit, ending in a multi-pin connector. The front of the unit is labeled with the brand 'Hero', model 'LED 2A/200W', and 'Electronic LED Converter'. It also lists technical specifications: 'Power: 200-260 V ~ 10-60 Hz 1 ~ 5.9s', '5w: 3.6V 500mA', and 'max. 8.33 A 200 W'. Various safety and certification symbols are printed on the front, including CE, a triangle with a dot, a triangle with an exclamation mark, a triangle with a lightning bolt, a triangle with a circle, a triangle with a cross, and a triangle with a star. The text 'made in Taiwan' is visible on the bottom left corner of the unit.
